Skills profile

Personal skills

Team working

I worked in many small group projects in university and one bigger one at the end of my second year where I had the leadership. I also worked closely with two other developers during my internship.

Autonomy

I'm active as freelancer so I'm used to face problems and I'm able to find solutions or a workaround by myself.

Technical skills

PHP

SQL

HTML/CSS

JavaScript

Work experience

Freelance

Jan. 2012 – Present

Web Developer + Web Designer

I'm active as a freelance web developer and web designer for different customers and different projects.

- *Front-end development (HTML, CSS, JavaScript)*
- *Back-end development (PHP, SQL)*
- *Visual Identity design*

Study Project

Sept. 2012 – Mar. 2013

Group project in 3rd year university

A sport event management web application, done with 5 other students in Scotland.

- *1st prize for best project of the year*
- *Built with PHP using the framework Laravel*

Widiwici

Apr. 2012 – July 2012

Web Developer Intern

Widiwici is operating a social network of the same name dedicated to sport practice. The existing website was built on top of a custom PHP framework.

- *Repairing bugs and non-working features*
- *Adding Facebook integration and a shop*
- *Planning a rebuild using a CMS*
- *Rebuilding the website using Drupal*
- *Server administration*

Study Project

Sept. 2011 – Mar. 2012

Group project in second year university

Online catalogue for a local jewellery to showcase their products, done with 5 other students.

- *Requirements according to customer's needs*
- *Team planning and task assignment*
- *Building the website with PHP, HTML, CSS and JS*
